[FFPS ADVISORY COMMITTEE ROSTER](#)

MARCH 21, 2025 MEETING UPDATES

This FFPS Advisory Committee meeting included updates from all subcommittees and focused discussions on cross-system collaboration, CQI planning, and integration of CalAIM supports into the FFPS framework. Members voted and approved the [FFPS Implementation Brief](#).

The Committee reviewed the draft FFPS Continuous Quality Improvement (CQI) Plan, which outlines five key recommendations to strengthen statewide implementation, including governance, data infrastructure, and equity. Members were invited to provide final feedback ahead of its release. Additionally, updates to the FFPS Implementation Brief were reviewed, offering feedback on topics such as candidacy determination, safety monitoring, and service coordination. Suggestions included adding case examples, fiscal guidance, and an executive summary to support clarity and usability across counties. We’re also pleased to share that two committee vacancies have been filled, representing academia & research and in-home parenting CBOs.

WHAT’S NEXT?

The FFPS Advisory Committee meets next on June 20, 2025. The Committee will continue advancing statewide implementation efforts. Some topics the Committee anticipates exploring include:

- Operationalizing the CQI Plan
- Further development of the Family Well-Being Plan
