

MAA Time Survey - What You Need to Know

Funding Back to Organization

Participating in the MAA (Medi-Cal Administrative Activities) is crucial for securing necessary funding for your organization. Every survey entry you make translates into federal dollars that directly support client services. This funding is essential for enhancing the resources, training, and programs available to support your work and improve the services provided to clients.

Why It Matters to You

- **Funding:** Each entry in the survey helps channel federal funds to your organization
- **Better Support for Your Work:** These funds enable improved resources, trainings, and programs, thereby strengthening client services.

What You Do

- **Daily Survey:** The time survey is perpetual. You are required to log your activities in 15-minute increments. It is vital to document both MAA (Medi-Cal Administrative Activities) and non-MAA activities accurately.
- **Guidance Available:** Training and a reference guide are provided to help you correctly code your activities.

What are the Activities

- Medi-Cal Outreach:
 - Initial meeting with a client asking if they have Medi-Cal and providing information about it
- Facilitating Medi-Cal Applications:
 - Referring a client to apply to Medi-Cal
- Referral, Coordination & Monitoring of Medi-Cal covered services:
 - Assessing a client's health related needs and concerns
- Program Planning & Policy Development of Medi-Cal covered services:
 - Developing or revising policies, procedures or standards of care regarding delivery of health-related services
- MAA Training:
 - Annual Training

Why It's Important

- **For Clients:** By connecting clients to the care they need, you support their health outcomes and long-term success.
- **For the Community:** Investing in preventative care keeps people healthier, reduces strain on emergency services, and supports safer, more stable neighborhoods.
- **For Federal Costs:** Studies have shown that access to preventative care reduces costly emergency room visits.

If you have any questions or need assistance, please reach out to your claim unit lead.

Remember, training and help are always available to ensure you can participate in the survey effectively and with confidence. Don't hesitate to reach out!
